

**Community-Led Libraries Committee  
Ontario Public Library Association  
January 2017**

The Community-Led Libraries Committee is in the process of ramping up after a very busy time for many members.

The Committee welcomes new member Amanda Kelly of the Midland Public Library system. Recruitment for an additional one to two members continues.

A teleconference was held in the late fall to discuss a Think Tank session for May 2017. A firm date and location will be forthcoming shortly.

The group brainstormed potential ideas for help moving forward with an Ontario focused toolkit. Grants and co-op students were identified as possibilities. The committee will investigate these options further.

The group hopes to meet in person at OLA and will reconvene via teleconference in early February.
